PSA – INTERNET AWARENESS

Parents, do you know what your child is doing online? Please remember to set up your at home wifi privacy and parent controls. Currently, our school computers are only filtered WHILE AT SCHOOL, through our wifi settings. Once students bring chromebooks home, the only filter is whatever you've established and monitor.

Also – please look into websites your students are visiting. Things that don't immediately look "harmful" can be extremely dangerous!

- Social Media: TikTok, Instagram, Snapchat, etc. Drug dealers and sex trafficker frequent social media to target our young people.
- IMVU: virtual reality avatar website/app where people of all ages can chat (unmonitored)

Apps like Life360 can help you keep track of what your student is doing on their devices!
